

2021 NGV Achievement Awards

NGVAmerica sponsors the NGV Achievement Awards to recognize individuals and organizations for their outstanding contributions toward the advancement of natural gas as a transportation fuel. They are awarded to nominees from all stakeholder segments, including but not limited to: NGV industry equipment and service suppliers, policymakers, customers, and clean air/clean transportation advocates. Nominees' disciplines include education, government relations/policy development, public relations/communications, marketing, technology and operations/applications, among others.

Judges representing NGVAmerica will evaluate the nominees based on established judging criteria. The Achievement Awards program is non-competitive; the qualifications of the nominees dictate the number of awards presented. There is no pre-determined number of awards.
